

SAKURA AI Engine

English Reference Materials

Cover Sheet, Document Index, and Usage Notes

DOCUMENT TYPE	SOURCE DATE	AUTHORITATIVE SOURCE
Reference Translation	Early July 2026	Latest original websites

1. About This Collection

This collection provides English reference translations of selected websites and manuals related to SAKURA AI Engine. The materials are organized across multiple files covering the service overview, getting started guidance, features, licenses, and API specifications.

Use the document index below to understand how each file fits within the overall collection.

IMPORTANT: These documents are reference translations only. Always consult the latest original-language source for authoritative information.

2. Document Index

The files are grouped by source and purpose. The structure below serves as a breadcrumb-style guide to the full collection.

1. SAKURA AI Engine Manual

File	Scope
1.Sakura_AI_Engine_EN.docx	Manual contents and overall navigation
1-1.Service_Basic_Information_EN.docx	Overview, features, notes, pricing, and support
1-2.Getting_Started_EN.docx	Account sign-up, account token issuance, API endpoints, and token testing
1-3.Playground_EN.docx	Playground overview, usage, and RAG features
1-4.Operation_Guide_EN.docx	Available models, Document/RAG API, transcription, TTS, and cancellation
1-5.TTS_Model_Licenses_EN.docx	VOICEVOX model licenses, attribution, and usage conditions
1-6.Closed_Model_Usage_EN.docx	Advance application, review process, usage conditions, and notes
1-7.Tips_EN.docx	Service Endpoint Gateway and service policy information

2. Model License Information

File	Scope
2.Provided_Model_Licenses_EN.docx	Model providers, applicable licenses, and model-specific conditions

3. API Specifications

File	Scope
3-1.Sakura_AI_Engine_Inference_API_EN.docx	Chat Completions, Responses, Messages, transcription, embeddings, TTS, and VOICEVOX-compatible APIs
3-2.SAKURA AI Engine RAG API.docx	Document management, chunks, RAG answer generation, vector search, and uploads

4. Service Introduction Page

File	Scope
4.Sakura_AI_Engine_Service_Page_EN.docx	Service overview, features, available models, pricing, and onboarding flow

3. Important Usage Notes

1	Reference translation only. This collection is an English reference translation of the Japanese content published on the respective original websites. It is not intended to serve as an official English version or a formal contractual document.
2	Consult the original websites for authoritative information. For accurate information about service specifications, available models, pricing, usage conditions, restrictions, licenses, and related matters, always refer to the latest content on the original websites.
3	Differences may arise over time. Updates to the original websites, changes to service specifications, additions or discontinuations of models, pricing revisions, and other changes may cause differences between this collection and the original sources.
4	Source date. As a general rule, these translations are based on the content of the original websites available in early July 2026.
5	Linked content. Information at links included in these documents may be updated. The linked content itself may not be included within the scope of the translation.
6	Contracts and licenses. For matters requiring legal or contractual interpretation, including terms of use, licenses, attribution requirements, pricing, and application conditions, the formal Japanese information published on the original websites takes precedence.

4. Terminology and Formatting

- Service names, model names, API names, parameter names, and endpoints are generally retained in their original form.
- Control panel labels may differ depending on the environment or interface language.
- Field names in sample code and JSON are not translated in order to preserve API compatibility.
