

Closed Model Usage

[Updated: December 2, 2025]

How to use the closed model

A closed model is a model whose usability is determined by a specific model provider after examination. Advance application is required for use and is not eligible for the free quota. If you wish to use it, please check the following steps and notes.

Before You Begin

To use the closed model, advance application is required. As the model provider determines permission to use the model based on the application details, it is not possible to start using it immediately after applying.

Please also note the following points:

- Closed models are not eligible for the free plan. Fees will be charged depending on usage.
- Please do not enter or submit any personal information in the closed model

application form.

- Data such as text that the user inputs as an inference request after starting to use the closed model will be used only for the model's inference processing and will not be sent to the model provider.

Application Process

1. From the AI Engine control panel, go to the "Available Models" list page.
2. Click the "Apply" button from the applicable models.
3. Fill out the application form below.
 - i. Enter required information
 - ii. Agreement to Terms of Service
4. Please check the contents and send.
5. The model provider will decide whether or not it can be used based on the application details.
6. As a general rule, results will be confirmed within 7 business days. Please check the status on the "Available Models" list page.
 - i. If approved, an "Available" icon will be displayed on the target model.

Notes

Please note the following when using the closed model.

- **Not eligible for free plan**

- Closed models cannot be used under the Free Plan; usage-based charges will apply.

- **Review Criteria and Reasons Cannot Be Disclosed**

- We are unable to provide individual answers regarding the model provider's review process, judgment criteria, and reasons for disapproval.

- **Not available for personal accounts**

- Only corporate accounts can apply.

- **Please do not send personal information**

- Please do not include personal information in your application.

- **No Data Shared with Model Providers**

- Data when using the model is not sent to the model provider.

- **Approval Is Not Guaranteed**

- Your application may be rejected depending on the intended use.
